

For Immediate Release

Innovation Meets Practice: EyeC Draws Positive Conclusions from Open House 2025

Hamburg, Germany, May 20, 2025. EyeC GmbH hosted an open house at its headquarters in Hamburg on 13 and 14 May 2025. More than 50 national and international trade visitors from the printing, packaging and pharmaceutical industries took the opportunity to learn more about the latest developments and technological innovations in the field of automated print image inspection from the German expert for optical inspection.

The two-day event focused on practical live demonstrations, presentations on the latest developments and solutions, as well as personal discussions with EyeC experts. The new AI-based defect classification within the inline inspection systems of the EyeC ProofRunner line attracted particular interest. This innovative solution not only promises more precise defect detection but also significantly increases efficiency in inline inspection.

In addition to technological innovations, the Open House further impressed visitors with its comprehensive technical content, such as the validation of inspection systems in regulated industries. The presented EyeC Validation Support, which was particularly interesting to representatives from the pharmaceutical and medical technology industries. This service supports the efficient and documented implementation of 100% of regulatory requirements.

Markus Fietkau, Director Sales at EyeC, says: "Our aim was not only to present our technologies to the visitors, but above all to strengthen the personal dialogue about future requirements. The enormous interest and positive feedback show that our systems set standards in terms of quality assurance, regulatory requirements and process optimisation."

An atmospheric programme with an exclusive harbour tour rounded off the event and provided space for networking and in-depth discussions. With a mix of innovation, expertise and personal dialogue, the EyeC Open House 2025 provided invaluable inspiration for

decision-makers in the industry and proved to be a valuable platform for strategic partnerships and technological advancements.

About EyeC GmbH

Founded in 2002, EyeC GmbH provides fast, accurate, and easy-to-use artwork and print inspection systems. EyeC is the only provider on the market that ensures product quality throughout the entire manufacturing process – from the first artwork file to the finished printed product. Products from EyeC provide users with 100% confidence about the print quality of their products, such as labels, folding boxes, package inserts, or flexible packaging. As a result, complaints, and recalls are minimized, production costs lowered, and quality testing optimized. Around the world, more than 3,000 EyeC inspection systems are currently used by pharmaceutical companies, printers, and manufacturers of branded goods. The company currently employs over 70 people in Hamburg and has international sales partners in more than 100 countries. Further information at www.EyeC.com.
